Karnataka Dry Chilli Outlook: January 2024

Karnataka is known across the world for growing high-coloured dry chillies. Major areas are Hubli, Bellary, and Raichur. Varieties are Byadgi / KDL, Dabbi, Syngenta 5531, Syngenta 2043, and others. Tungabhadra and Almatti Reservoir are the main irrigation water suppliers for Karnataka area Dry Chillies.

Area	Sowing period	Harvest period
Hubli	June - July	November - March
Bellary	July - August	January - April
Raichur	July - September	February - May

Karnataka area Rainfall in 2023-24.

Karnataka Reservoir in 2023-24.

Date of water released

Year	2020-21	2021-22	2022-23	2023-24
Tungabhadra	1st August	25th July	13th July	1st August
Almatti	23rd July	24th June	12th July	26th July

Total water released from June to December 15th in cusecs

Year	2020-21	2021-22	2022-23	2023-24
Tungabhadra	24 lakhs	31 lakhs	60 lakhs	12 lakhs
Almatti	59 lakhs	69 lakhs	68 lakhs	22 lakhs

Total water storage available on December 15th

Year	2020-21	2021-22	2022-23	2023-24
Tungabhadra	79%	96%	88%	12%
Almatti	96%	86%	98%	59%

Karnataka Market arrivals in January 2024.

January 2024 Sumarized

- ❖ Major arrivals were Syngentha 5531, Syngentha 2043 and Byadgi / KDL.
- ❖ Compared with last year, arrivals are 12 % more.
- ❖ Compared with last year sowing was delayed by 1 month, so February arrivals will increase.
- ❖ This year the percentage of arrivals of colour medium and top quality is more than last year.
- ❖ January last week Byadgi / KDL price was 43,000 and Syngentha 5531 was 14,000. Prices from 1st week of January to last week saw a decrease of 10-15%.
- ❖ January weather was good for crops, Bellary and Raichur area crops are performing well. The climate is good. First picking's will be of high quality and will have higher yielding.
- ❖ This year's reservoir storage is lowest in the last 4 years, compared with previous years it is 60-70% less and outflow is 60% less.
- ❖ Due to high carry forward stock, farmer's sentiment is average.

January SpiceExtra Updates:

The banner features a portrait of Basavaraj Hampali on the left. The background is blue with white and yellow text. Logos for '2nd EDITION', 'IAFF INDO AGRI FOOD & FEED INTERNATIONAL', and 'TASO' are at the top. The text reads: 'BASAVARAJ HAMPALI FOUNDER OF SPICE EXTRA', 'I AM SPEAKING AT INDO AGRI-FOOD FEED', '8th 9th 10th JAN 2024', 'MAHABALIPURAM, CHENNAI, INDIA Hotel Four Points Sheraton', and 'REGISTER NOW AT: www.indoagrifoodfeed.com'. A circular logo with a chili pepper and 'SpiceExtra' is also present.

SpiceExtra.in was invited to speak for the SPICES session at Indo Agri Food Feed - 24, where we shared our data insight and also talked about the need for machinery in Dry Chilli farming. We are very happy to see the respect we are getting. Thank our community for this.

Project “CVJ”

Dry Chilli is mainly defined by its color and heat, for calculating these there are no portable / small-scale tools. Presently using eyes we calculate color and using tongue we calculate heat. We have been working for past 2-3 years with startups and government agencies to find a viable solution to this. We will be naming this project after Legendary Oleoresins pioneer Late Shri C V Jacob sir. The aim of this project is to combine traditional knowledge and technology.

We welcome Spices companies to get involved in this project, connect us at BasuHampali@gmail.com

This report is generated by our Bussiness Intelligence Software “Hukum” - Named after legendary Pickle maker Late Shri Hukumchand ji Chordia.

SpiceExtra is a platform for Research and Development(R&D) initiatives in Dry Chilli. It will focus on Digitizing - Price and Arrivals, Crop survey, Assaying and Branding. Check us at www.SpiceExtra.in
